

TAC have to register all competing athletes with UKA.

If you have been correctly registered with UKA you should have received your membership card earlier this year.

It is very important that you log on to your UKA account and ensure your personal details are correct and up to date (particularly your email address).

There is no automatic link from changes to your personal details with TAC to the UKA website – it is your responsibility to ensure they are accurate.

TAC pay £5 per annum to UKA for every individual club athlete, and try and get full value by using the facility that UKA offer to distribute emails to club members.

If your email is incorrect/out of date on the UKA database, you could be missing out on important Club communications !!!
